South Bogor, Bogor City, West Java, 16136 | (+62)8567635867 | [hnfroy@gmail.com](mailto:hnfroy@gmail.com) | <https://linkedin.com/in/hanif-royyan/> | <https://hnfroy.github.io/>

## SUMMARY

---

UI/UX Designer and Frontend Developer with over 2.5 years of experience working on websites, web applications, dashboard systems, and mobile apps for various business and institutional needs. I have completed more than 15 responsive web and mobile projects, delivering user-centered solutions tailored to client objectives and UX standards.

Proficient in Figma, VS Code, and design tools such as Adobe Photoshop and Illustrator, with a design approach focused on usability, readability, and visual consistency. Skilled in identifying and solving UX problems effectively, and known for speed and precision in translating designs into clean, maintainable code.

Experienced in using HTML, CSS, React, Tailwind CSS, and animation libraries like GSAP to create responsive and engaging interfaces. I am a fast learner, highly adaptable, and passionate about exploring new technologies. Comfortable working independently or collaboratively in cross-functional teams, with a strong commitment to efficiency and high-quality outcomes.

## SKILLS

## WORK EXPERIENCES

---

### PT. Sagara Xinix Solusitama

UI/UX Designer | *Fulltime*

*October 2022 – Now*

- As a UI/UX Designer and Front-End Developer, designing UI/UX that meets the specific needs and preferences of clients with a user-focused approach to create intuitive and appealing interfaces.
- Conducting in-depth research to understand client design needs, ensuring that the resulting design solutions are relevant and effective for the target audience.
- Transforming designs into code with precision, ensuring the final product aligns with the original design vision and functions well across various devices, including desktops and mobile.
- Proactively learning and mastering foundational programming skills in frameworks such as Laravel, React, and Vue to enhance front-end development capabilities and support more complex projects.
- Delivering high-quality design services to numerous clients, building a positive reputation through high client satisfaction and long-term engagement, and successfully completing over 10 design and slicing projects with positive feedback.

### PT. Bangunindo Teknusa Jaya

Front-End Developer | *Internship*

*December 2021 – March 2022*

- Serve as a frontend developer focused on building and enhancing company websites.
- Develop company websites utilizing the CodeIgniter 4 framework, ensuring robust functionality and scalability.
- Implement responsive design by translating detailed design files into efficient code, contributing to an engaging user experience.
- Maintain regular updates through progress meetings held every Tuesday, where key developments, challenges, and upcoming tasks are discussed to ensure alignment with project goals.

## CV.IDS

Web Developer | *Internship*

March 2021 – June 2021

- Improved technical skills in web development, including HTML, CSS, JavaScript, API management, and a basic understanding of backend development.
- Developed the web interface for the Kejar.id application using modern front-end technologies, focusing on responsive, interactive, and user-friendly design.
- Created and integrated APIs to ensure smooth, secure, and efficient data flow between systems.
- Collaborated with the development teams to translate wireframes and mockups into functional web pages aligned with user needs.

## EDUCATION

SMK Wikrama Bogor

2019 – 2022

Rekayasa Perangkat Lunak – GPA: 83.7
